

CARDIOLOGY CONSULTANTS OF PHILADELPHIA

Cardiology Consultants of Philadelphia (CCP) echocardiography labs receive reaccreditation by Intersocietal Accreditation Commission (IAC)

PHILADELPHIA – July 11, 2018

Cardiology Consultants of Philadelphia has been granted a three year term of accreditation by the Intersocietal Accreditation Commission (IAC) in Echocardiography in the area(s) of Adult Transthoracic. This latest accreditation awarded to CCP demonstrates the facility's ongoing commitment to providing quality patient care in echocardiography. Accreditation by the IAC means that all Cardiology Consultants of Philadelphia echocardiography facilities have undergone an intensive application and review process and have been found to be compliant with the published *Standards* thus demonstrating a commitment to quality patient care in echocardiography. Comprised of a detailed self-evaluation followed by a thorough review by a panel of medical experts, the IAC accreditation process enables both the critical operational and technical components of the applicant facility to be assessed, including representative case studies and their corresponding final reports.

About IAC

IAC provides accreditation programs for vascular testing, echocardiography, nuclear/PET, MRI, diagnostic CT, dental CT, carotid stenting, vein treatment and management and cardiac electrophysiology. The IAC programs for accreditation are dedicated to ensuring quality patient care and promoting health care and all support one common mission: *Improving health care through accreditation®*. IAC accreditation is widely respected in the medical community, as illustrated by the support of the national medical societies related to echocardiography, which include physicians and sonographers. To date, the IAC accrediting divisions have granted accreditation to more than 14,000 sites throughout the United States, Canada and Puerto Rico.

About CCP

CCP is America's largest independent cardiac care practice with offices in all five Southeastern Pennsylvania counties. With 96 cardiologists on staff in 35 office locations, CCP is committed to improving the health of patients through the provision of the most comprehensive cardiovascular care, research, and education possible.
